EDUCATION

Bachelor Of Technology in Computer Science

Visvodaya Engineering College

01/2023 - Present

Board of Intermediate Education

sri sai junior college

06/2018 - 03/2020

INTERNSHIP

Web Development Intern internPE

04/2023 - 05/2023

Description: During my internship, I had the opportunity to contribute to the enhancement of an existing e-commerce website. The goal was to improve the overall user experience, optimize site performance, and add new features to increase sales and customer satisfaction.

- **Responsibilities:**
 - Collaborated with senior developers to implement frontend enhancements using HTML, CSS, JavaScript
 - Assisted in redesigning the website's product pages to showcase products more effectively, incorporating responsive design principles for mobile users.
 - Worked on improving website load times by optimizing images, implementing lazy loading, and reducing unnecessary requests.
 - Supported the development team in identifying and fixing frontend bugs and issues reported by users.
- **Results:**
 - Gained valuable hands-on experience in web development, honing my skills in HTML, CSS, and JavaScript.
 - Improved my ability to work collaboratively within a development team, learning from senior developers and applying their guidance to real-world projects.

ACHIEVEMENTS

Participated in coding competitions such as Weekend Contest 86 on Coding Ninjas and lies in the top 10% of scholarship taker

Won first prize in Project Expo at Visvodaya Engineering College

Participated in coding competitions such as Weekly Contest 358 on Leetcode

TECHNICAL SKILLS

Frontend Technologies: Angular, HTML, CSS, JavaScript

Version Control: Git

Database Technologies: SQL

PERSONAL PROJECTS

Weather Forecast Application (08/2023 - 08/2023)

- **Description:** Developed a weather forecast application that provides users with up-to-date weather information for their chosen locations. The app uses various APIs to fetch and display current weather conditions, forecasts, and other relevant data, offering an intuitive and user-friendly interface.
- **Responsibilities:** Implemented the frontend using Angular, HTML, CSS, and JavaScript to create a responsive and visually appealing user interface. Integrated with multiple third-party weather APIs to retrieve real-time weather data. Designed a user-friendly dashboard that allows users to add and manage their preferred locations for weather updates.
- **Results:** Received positive user feedback for the app's intuitive design and accurate weather forecasts.
- Implemented responsive design, making the app accessible on both desktop and mobile devices.

Personal Portfolio Website (09/2023 - 09/2023)

- Created a personal website to showcase my web development skills, featuring a responsive design and interactive elements using HTML, CSS, and JavaScript.
- Implemented smooth navigation and animations to enhance user engagement.
- Hosted the website on GitHub Pages for public access.
